6. SAFETY AND MAINTENANCE

SAFETY GUIDELINES

In order to achieve maximum safety while using your Razer Nabu Watch, we suggest that you adopt the following guidelines:

1. Should you have trouble operating the device properly, unplug and/or remove the device and contact the Razer hotline; or go to www.razersupport.com for assistance. Do not attempt to fix the device yourself.
2. Do not take apart the device (doing so will void your warranty) and do not attempt to operate it under abnormal current loads.
3. Charge the Razer Nabu Watch in accordance with the recommended charging time and do not leave the battery charging overnight. Do not wear the Razer Nabu Watch while it is charging.
4. Do not expose the Razer Nabu Watch to liquids while charging. Exposing the Razer Nabu Watch to these conditions may result in an electric shock.
5. Do not tamper or abuse the Razer Nabu Watch; including but not limited to dropping, crushing, excessive bending, puncturing, shredding, microwaving, incinerating, or inserting foreign objects into the Razer Nabu Watch.
6. Do not use abrasive cleaners and/or harsh cleaning agents to clean the Razer Nabu Watch.
7. Do not expose the Razer Nabu Watch to extremely high or low temperatures such as leaving the Razer Nabu Watch in direct sunlight or in snowy weather for extended periods of time.
8. Do not expose the Razer Nabu Watch to open flames such as stoves, candles, or fireplaces.
9. Do not expose the inner band to organic solvents such as alcohol, acetone, and detergent.
10. Dispose the product in accordance with your local environmental laws and guidelines.

Prolonged contact may contribute to skin irritation or allergies in some users. If you notice any signs of skin redness, swelling, itchiness or other skin irritation, please discontinue use or wear the product clipped over a piece of clothing. Continued use, even after symptoms subsides, may result in renewed or increased irritation. If symptoms persist, consult your doctor. Please follow these care and wearing tips:

1. Clean and dry your Razer product regularly, particularly in areas in contact with the skin. Use a clean, damp cloth. Do not wash product under a faucet.

2. Wear your Razer product loosely enough to allow air circulation. Review the sizing guide.
3. Use skin care products sparingly on the areas of the skin covered by your Razer product.
4. Take the product off from time to time to clean it and allow for your skin to be uncovered.

LITHIUM-ION POLYMER RECHARGEABLE BATTERY

The Razer Nabu Watch contains an internal, lithium-ion polymer rechargeable battery. In general, the life expectancy of this battery depends upon use. Prolonged charging may decrease battery life over time. If the battery does not charge after several attempts, it may be non-operational and you may need to contact customer support. Do not attempt to replace the Razer Nabu Watch's lithium-ion polymer rechargeable battery yourself.

NON-RECHARGEABLE COIN CELL BATTERY

The Razer Nabu Watch contains an internal, non-rechargeable coin cell battery (CR2032). In general, the life expectancy of this battery is 12-18 months. Low battery power is shown on the watchface display. This is indicated by dimly lit symbols and indicators, or when the display goes blank. Continuous use of the Nabu Watch while the coin cell battery power is low may result in malfunction. Replace the battery as soon as possible. Do not attempt to replace the Razer Nabu Watch's coin cell battery yourself; instead, seek the assistance of your original retailer or authorized "Razer" service center. Note that you will be charged for replacement of this battery, even if replacement is required within the watch's warranty period.

TRACKING

The accuracy of our sensors and associated calculations (i.e. distance traveled and calories burned) will vary with use.

IMPORTANT NOTICE FOR USE IN HEALTHCARE ENVIRONMENTS

This Razer device is not intended for scientific or medical use but is designed to provide meaningful data to help users reach their health and fitness goals. This Razer device is not a medical device and is not listed under UL or IEC 60601 (or equivalent). This device should be kept at a certain distance to avoid harmful effects to patients or medical equipment.

AVIATION USAGE RESTRICTIONS

Certain restrictions apply to this device while on-board an aircraft. Razer encourages you to understand these restrictions to ensure the flight's safety and security. Contact your airline to determine if Personal Electronic Devices (PEDs) can be used during the flight. Your Razer device utilizes Bluetooth Low Energy, which is considered safe by most airlines
