16 SAFETY INSTRUCTIONS

Switch off mobile telephone in **hospitals** or near medical devices. There should be a minimal distance between pacemakers and switched-on telephones.

Do not drive a **vehicle** while holding a mobile phone in your hand. Follow the laws and traffic rules of the country you are in.

The mobile phone must be switched off while you are in an **airplane.**

The telephone must be switched off near **petrol stations** or other areas with explosive materials.

Never direct **LED flashlight** into the eyes of humans or animals! (Protection class 3)

SAR-value: The maximum weight determined by the EU is 2.0 W/kg. This model has a maximum of 0,354 W/kg.

17 INTENDED USE

This mobile telephone is robust and intended for mobile use. It is to be protected from moisture (rain, bathroom...) and impacts. Do not expose to prolonged direct sunlight.
Other use as described above leads to damage of product and furthermore is associated with hazards such as electrical shock, fire and so on. The entire product may not be altered nor rebuilt nor can the housing be opened.
The power adapter is designed for use in household wall outlets to public electricity grids with 230 volts / 50 Hz (10/16A) voltage.

5 FIRST STEPS

Switch on the phone: press power on/off-key for 2 sec.
Switch off by pressing power on/off for 2 seconds again.
When using a new SIM card, enter the 4 digit PIN Code (Personal Identification Number) and confirm with [ok].
PIN-Code: The PIN-Code is a 4-digit number combination preventing others from switching on your mobile phone.
• Switch off your PIN-Code: In menu: **Settings → Security Settings → PIN → PIN off.**

Standby mode:
In standby mode the phone is turned on, but no active applications (calling, messaging, etc.) are running. To get into standby mode, when you are e.g. in the settings menu, press repeatedly.

Entering Menu:
• Press - key.
• Scroll through menu points: with ▽ and △.
• Confirm: with [ok].

Note: due to inactivity phone lights and screen turn off after a while. To turn on again, press any key.

Pick up call: Press [ok]- key.
End call or **Reject call:** Press - key.

Dial: Enter the telephone number via the keypad (including area code with 0) - start call with [ok].

Redial list: press [ok] - key, scroll through call list with ▽△ (all dialled, missed and received calls), select a number and start call with [ok].

Handsfree Speaking: To talk without holding the phone to your ear, switch on/off the handsfree function during a call: press [ok] **Handsfree.**
Note: if you stay at a menu point without confirming ([ok]), a help text with explanations pops up. To leave this, press .

6 PHONE BOOK

Save names and numbers (start with international prefix, e.g. +44 for UK) by entering menu in standby mode (Standby-Mode: chapter 5) with , then ▽,▽,▽,[ok] → Menu-Points: **Search name, Add contact, Own Number, Emergency numbers** (add, change, delete, status on/off), **Quick dial keys, Copy All, Edit Contact, Delete, Send contact by SMS, SMS in PhoneBK, Settings;**

Storing phone book entries (Name & Number): Enter menu with → continue to **Phone book:** △,△,△,[ok] → continue to **Add contact:** ▽, [ok] →Enter name via the keypad (See chapter 8 *Write SMS* for text entry) ▽, →Enter number, ▽ and to **Save**.

Searching phone book entries:
In standby mode: open the phone book with ▽ :
• Scroll through the entries with ▽ and △ or:
• Search names: enter the initial letters of the searched name via the keypad (scroll through with ▽). When the requested name is shown, press [ok] to start a call.

Add phone book entry via SMS:
In menu **phonebook → SMS in PhoneBK** to turn function to receive phonebook entries via SMS message **on/off,** or specify that **only phone book contacts** can send entries to you. The phone number will be saved automatically in your phone book when you receive a SMS with the following content: #name#number# e.g.: #Tom#+491509876543#

Buttons M1, M2, M3:
Store or change your favorite numbers: Enter menu → **Phone book → Quick Dial keys** → select M1, M2 or M3 →[ok] (Ok). To add: enter new name and number or press [ok] (Search) to access the contact list and store an existing contact. To edit: Delete and enter new name and number.

7 EMERGENCY FUNCTION

You can store a total of 5 emergency numbers (family, neighbours, friends, emergency services). In case of emergency these preselected numbers will be dialed automatically in a sequence, if the emergency key on the back of the phone gets pressed and held.
A continuous warning tone then starts in “loudspeaker mode” during emergency, so you and people nearby are warned due to the emergency! If the first number cannot be reached, the second number will be called automatically.
If the second number in row cannot be reached, the third will be called. (max. 3 rotations of the 5 numbers).
Note: To avoid getting caught on a mailbox, the reached person has to confirm your emergency by calling back.

If no emergency number is saved or if your calling card has expired or you have no access to a foreign network (e.g. roaming not permitted), 112 will be dialed.

Saving emergency numbers: Enter Menu → **Phone book → Emergency numbers → Add Emerg. No.** → choose Emergency number (1-5) → set if it’s a private number or a help organisation → pick contact from phone book → done
Note: select emergency number: private number (has to confirm as explained above) or official service number, e.g.: ambulance, police, etc. (no confirmation call required).

Switch emergency function On / Off: Enter menu: **Settings → Emergency numbers → On/Off.**
Note: If you want to save numbers from official services, police, fire department, etc. as emergency numbers, you have to clarify this with these institution. No liability will be assumed for possible costs incurred if you dial accidentally.

8 SMS MESSAGES

SMS (Short Message Service) are written messages with a maximum of 160 characters.

Receive SMS: A short signal and a written information on the display inform you about a new, incoming SMS message. Read the message immediately by pressing [ok]or see a list of messages which have already been received in the menu → **Messages → SMS → Received SMS.**

Write SMS: With Enter menu: → **Messages → SMS → Write new SMS:** The text entry is done by the keypad.

1 . , ! ? ‘ “ @ : 1	5 j k l 5 £	9 w x y z 9 ý þ
