4   Troubleshooting

If you encounter problems, please refer to the table below before

applying to a Sigma mobile service center.

Common problem	Possible solution
Unable to switch the phone on	Check whether the battery power is sufficient. Please charge the battery. Check battery contacts. Remove and put the battery back to phone. Power on.
SIM-card error	Check SIM contacts, integrity. Use clean fabric to clean contacts. If

	Sim-card doesn`t work you should contact to your service provider.
Poor signal	Check the level of signal on an indicator that is located in the right corner of the screen. 5 bars indicate strong signal, less than 2 bars indicate weak signal.
Unable to dial out	Move to the area with better network signal. If Sim-card doesn`t work you should contact your service provider.
Unable to connect the network	The signal is weak, or there is interference problem. Please contact your network operator.
Unable to enter to SIM menu	Your SIM-card do not support this function.
